What is Small Teams Edition?

Pentana Audit: Small Teams Edition (STE) is Ideagen's entry level audit management solution. STE offers a convenient alternative to auditors who are looking for a lighter auditing experience with our software, at an attractive price tag.

With STE, users can access the core functionality of Ideagen's powerful audit management software in a simple, easy to use Web UI. The result is a streamlined solution that is fit for purpose, without the need for expensive support packages or lengthy implementation periods.

Who is it for?

STE is aimed at audit teams of five people or less, and may not have the budget to purchase the full Pentana Audit solution.

What are the benefits?

- More cost effective
- Functionality that is fit for purpose
- Solution is ready-made, off the shelf
- Installation is simple and requires a minimal amount of set-up
- Faster time to benefits

What do I get with Small Teams Edition?
